School News

By Betty Lou Powell

The three first grades made a school journey to see a railroad locomotive on February 5 in connection with a unit study of "Machines That Work For Us". They examined it closely and a man explained how it worked. They were also shown through a caboose and observed box, tank, refrigerator, and other type cars. The children were taken on the bus driven by the school bus driver, Mr. Nims. The three teachers of the above grades, Miss West, Mrs. Clark, and

Mrs. Irvin supervised the excursion.

The first grade playground has a new sand pile. The box was constructed by Prof. Davidson's agriculture boys, and Mr. and Mrs. Sudbrook hauled several truck loads of sand.

The first grade children have been listening to the story of "Heidi" during their get-together activity period, and are looking forward to seeing the stage production that will be presented here on February 23 at the old theatre. The next stories they will hear will be "Abraham Lincoln" and "George Washington".

MODERN Oil
HOUSE HEATING

Pays Double Dividends!

Let's face it... Florida homes do need adequate heating facilities. Plans for new homes should provide for heating. Existing homes should have adequate heating installed. Extensive research has shown that Oil House Heating is best from every angle —

FIRST... You're sure to be warm and comfortable... at lowest cost. It will take just a minute or so to buy a "fuelless" model that you just move in and light up. And it takes only a little longer to get fixed up for a permanent installation that will solve your heating problem for good.

SECOND... Use of electricity for house heating can cause you lots of trouble — service interruptions due to overloaded electric lines and transformers... delays while hard-to-get equipment is repaired... inconvenience... discomfort. So use electricity for the jobs it does best — lighting, cooking, refrigeration, water heating, washing, ironing, dishwashing and all the other labor-saving services. And use oil for the job it does best — heating homes!

FUTURE FARMERS
 Continued From Page One
 plimented the Future Farmers of Home Economics upon the great work they were doing in their respective school group work. Mr. Mayo is an honorary member of the FF of A, and was given his honorary State Master degree at Jacksonville in 1929, and that charm, he constantly wears on his watch chain, the only piece of jewelry that he wears. Both of these men were given big ovations by the crowded grand audience.

The Tampa fair of 1948 will easily go on record as being the largest and best in its history. So big in exhibits that one needed an entire day, to make the rounds of the various exhibits, to see the auto race and visit. Every one was in a happy mood, and the cats and drunks devoured by the crowd was prodigious. The mid-way was a popular place for promenade, if elbowing and jamming through the immense crowd could be called pleasure.

The writer was invited by Prof. Bob Davidson of the local chapter to make the trip with his crowd of over 50 boys. So I rolled back 60 years of my life, and again became 15, and entered into the experience with zest, and at group rolls I was on hand to answer parent, even to the parade around the track.

It was energetic going and I passed muster, but oh, how those "doggies" and aged limbs did ache after many hours of unusual use. It was a great experience and would not have missed it for anything. Arriving at the ground, checking in, and doing what the program required, the lads were "Cut loose" to enjoy the fair as they saw fit, and believe me there was little if anything that they did not see. They did take time out to visit the electric poultry, stock and other displays. Two judging teams, one on Cattle and one on Exhibits were entered by the local boys. Randolph Phillips, Buddy Freidheim and Kenneth Bass were the cattle judging team, while Fritz Stein, Kenneth Harris and Billy Ray Evans were the exhibit team.

For two nights, the Glades delegations by courtesy of the Army, were housed at the Me Dill field army barracks. The first night, from 9 to 12 afforded much hilarity. The pillow fights got so strenuous that the MP's had to quiet the lads down. The second night the lads were too tired to even attempt any horse play and sought the beds in an orderly manner. The drivers of the bus and pickup were Messrs. Davidson, Nels, Todder and Harris, who got all home safe and sound. Editors Paul Harden, John Gledhill and Carl Settle, were special guests of the Chapters in Palooka, Belle Glade and Clewiston on this educational outing. Thanks, boys.

Elks Scholarship Applications Are Now Available

One of the main projects of the National Elks is its Educational program which is carried on by Educational Foundation funds. These scholarships run from \$3000.00 up to \$10,000. Applications for 1948 are now available at the Subordinate Elks' lodge, and are open to American boys and girls without regard to race or religion, who are High School seniors, in all of the 48 states of the union, and to those boys and girls already college undergraduates, students, and recipient has the right of selection if he or she desires to attend.

This foundation was established in 1929 and has awarded scholarship funds in the amount of \$270,000. The Foundation is headed by seven Past Grand Exalted Rulers, one of them being ex-Governor Dave Shultz, of Florida.

Applications will be available to any applicant, who can qualify for scholastic qualifications, from any local Elks' lodge secretary, or by writing to Elks' Foundation at Boston, Mass., and asking for "Memorandum of Required Facts", which will state each step that will be required by the applicant.

Glades County To Replace Present School Center

The Glades County Board of Public Instruction has decided that it will adopt and carry out most of the provisions of the survey made by a state board, for improving the school ratings, building improvements will cost a minimum \$85,000. All the present school buildings at the Moore Haven educational center, will be replaced with modern constructed equipped

buildings, except the present brick building, which will be remodeled for other uses.

The colored Booker T. Washington colored school will have a new and larger site and new buildings. Colored high school children will be transported to the colored Harlem academy at Clewiston.

Application has been made to the Southeastern Association for membership, as the requirements in qualifications, have been met.

A three cornered race for State Representative in Glades county has developed, with Mayor Frank D. Faun, of Moore Haven, getting into the race against H. G. Stewart and J. H. Peebles, Jr., the latter the present incumbent.

All Glades county electors, or those entitled to register, will have a county wide re-registration, under a new 1947 special act passed by the Legislature for that county. It will not be a perpetual roll like Palm Beach county is adopting.

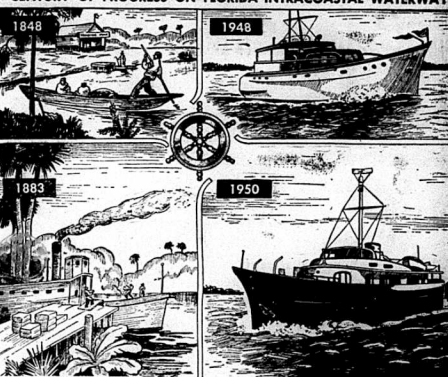

John Whidden, long time commercial fisherman at Moore Haven, has volunteered to become a defendant in a suit, to test out in court, one of the recent laws, enacted, and which was not considered in the recent Supreme Court decision. This is the "no penalty" act.

Rev. Robt. Frazier Religious Tour In North

Rev. Robert Frazier, colored, who is quite an extensive property owner, and the operator of a barber shop over on Fifth street has made plans for the making of an extensive evangelistic trip to New York, Michigan and Illinois, as soon as the season is over here in Florida.

Rev. Frazier has produced a gospel tabernacle truck, and a house trailer, which he will motivate on the tour. Besides devoting part of his time to the

CENTURY OF PROGRESS ON FLORIDA INTRACOASTAL WATERWAY

The Florida Intracoastal Waterway, now on the verge of new development, has been a leading artery of progress in Florida since the days of Ponce de Leon. As late as 1848, Indian canoes were principal users of natural watercourses now part of the Waterway. In 1883 dredging of a five-foot channel began and small packet steamers began to ply the canal. Since 1912, on 8-foot depth has been specified for the Intracoastal Waterway and many small pleasure craft visit Florida each year via the East Coast Canal. Picture at lower right is the Fleischmann yacht HAIDA, largest post-war yacht built in this country. The HAIDA is typical of ships which will use the Waterway when it is deepened to 12 feet in a project now awaiting appropriation of funds in Washington.

ministry, he also has prepared, and published two religious books, entitled "Road to Life" and "What Do You Know About God?", ten thousand of the latter having been recently delivered him from the Herald printing. On his car he terms himself as the "Itinerant Philanthropist".

Rams Win Again

The Golden Rams, both

teams, hung defeats on the former a Chicago Radiator Boynton quints at the local gym on Thursday night of last week. The boys won by a score of 39 to 23, and the girls by a good margin score. The Rams all played fine ball, Mr. Donald leading with a 8 baskets himself as the "Itinerant Philanthropist".

Florida Pleases Chicago Man

Mr. and Mrs. Simon Levy,

the former a Chicago Radiator manufacturer, are making their first trip to Florida, and are guests of Mr. and Mrs. Sam Gordon and other local relatives. To get out of the below zero weather in Chicago to this sunshine state, is most delightful to the Levy's. "Mr. Levy is much pleased - with Belle Glade and the region, and see great possibilities here, and may plan to do some investing in this locality.

195 PEDESTRIANS KILLED IN FLORIDA IN ONE YEAR

"One of the most serious traffic accident problems unquestionably is the pedestrian," says State Motor Vehicle Commissioner George H. Asbell.

Of 641 motor traffic fatalities during the last complete year 195, or 34%, were pedestrians, a higher death rate in that classification than was shown in the previous year's record.

At least 159 more people will be killed by automobiles in Florida this year during the fatal months of March, April and May. Of these 54 will be pedestrians if the latest record prevails. The indications are that fatalities will be even greater. 7 out of 10 of these deaths will occur at night and three-quarters of them will be walking or crossing in a way to contribute to their own deaths.

This is a timely warning! Be alert to traffic hazards when you are a pedestrian. Cross at properly designated crossings. Don't rush out from between parked cars in the middle of the block. Never walk against the light. On highways walk to the left, facing traffic.

It's your life at stake. Walk safely—live longer!

Home Demonstration Club To Visit Frozen Food Plant

The Woman Home Demonstration Club met at the school cafeteria Thursday afternoon, Mrs. Marvin Miller presiding.

The topic for discussion was "The Frozen Food Looker for the Home". Miss Sara Horton, home demonstration agent, stated that there were three features to consider in purchasing one, the size, cost, temperature and temperature control.

She also outlined the steps in preparation of food for the frozen food locker, blanching, and packaging. She had an exhibit of various types of containers to be used for fruit and vegetables.

A report was heard from the Revision Center Committee including a financial statement of expenditures to date. Mrs. E. M. Willis, called attention to the need for a new floor and for the clearing of the grounds. Miss Marlette Campbell reported that the teen age girls were prepared to make and put up curtains and that the boys had volunteered for a paint job on it. Compton and Hruby also offered to donate electrical supplies needed and their installation.

It was decided to contact Mayor W. M. Jeffries and request that the board of directors take some action regarding necessary repairs and work.

Miss Horton announced the annual achievement exhibit for early in April, a tour of the Frozen Food Center in West Palm Beach on Feb. 25 at 1:30 p. m., and a meeting of food nutrition chairman with Area Mae Skies at the Court Kitchen, Feb. 6.

Laymon Hardy, student majoring in biology and ornithology at the University of Florida, was guest speaker taking as his topic, "The importance of protecting quails in the citrus

groves."

He illustrated his talk with specimens of several native snails.

He pointed out that the spraying and other methods of killing the citrus snails groves had to a certain extent upset the nice balance of nature by killing off some of the natural enemies of the pests which the treatment was intended to destroy or control.

Snails of the genus Milleria found on the Florida Keys in colorful array will also live in orange trees and keep them clean. The preservation of these snails is one of the purposes of the recently created Everglades National Park. They are a dry land snail and for that reason the experiments being carried on by Laymon and Mrs. Mollie Correll at Key-lanta with these snails have been hampered by the fall floods. Many of the snails brought from the Keys to their experimental farm perished when they fell from the tree into the water. Replacements are being planned.

Marionette Show Pleased P. T. A. At South Bay

Dewitt Uphreove, county registrar, explained the new permanent registration system adopted this year to members of the Parent Teacher Association at their regular meeting Monday evening in the South Bay School auditorium.

He pointed out that every person of voting age is required to register according to the new system in order to be eligible to vote in any coming county, state or national election. Registration books are now at the South Bay Town Hall in charge of Town Clerk A. B. Crow and electors may register any afternoon from 1:00 to 5:00 p. m. up to Saturday, Feb. 14, after which they will be returned to the County Court House.

Mrs. W. G. Bowen presided over the business session during which a report was heard from the committee appointed to investigate the purchase of a Water Cooler for the school. Mrs. Laura Willis advised members that one would cost approximately \$200 and it was decided to have a spaghetti supper Feb. 20 to raise the necessary funds.

Committee arrangements are composed of J. C. Summerlin, Mrs. Mollie Fay Walker, Mrs. Elytha Eckman, and Mead Willis. Mrs. Elton Summerlin was appointed to get donations of cakes and pies. Mrs. R. S. Donaldson, Mrs. L. C. Compton and Mrs. C. S. Clemans will be in charge of the spaghetti and supper.

Attendance prize was awarded to the fourth and fifth grade room taught by Mrs. Leslie Martin.

A very effective candle light Founder's Day ceremony was held at the school. "The 100 Wonders" was presented by Mrs. Laura Willis, Mrs. Elton Summerlin, Mrs. Roy Brown, Mrs. Mollie Fay Walker, Mrs. Leslie Martin, Mrs. Olga Hardy, Mrs. Viola Donaldson, Mrs. Linton Miller, Mrs. Thelma Bowen read the ceremony.

Mrs. F. W. Mutehler and Mrs. Herbert Priest sang a vocal duet, "A Tribute" as the closing feature of the ceremony. Principal H. S. Emery announced that the opening number of a short entertainment course would be a program of musical illustrations lasting about 90 minutes to be staged on Feb. 13 at 8:00 p. m. at the school auditorium. Master Magdalen Wade Andrews will present his entertainment, "The Show of 100 Wonders" at that time.

He also announced that the Kingsland Marionettes, will present a return engagement on the evening of Feb. 18 at 8:00 p. m. This time the performance will be "Robin Hood", first made popular as a narrative show by Tony Sarg's famous troupe of marionettes. In addition, the performing dolls will present a bill of Marionette Varieties.

The evening ended with a social hour during which the hospitality committee served cake and coffee to approximately 30 patrons and teachers.

Skating Party

The young people of the Baptist Training Union enjoyed a skating party at La Belle Friday night. The hostess party were Billy Strickland, Mary Lois Hodges, Verna and Doris, Martin, Mrs. Hester, R. G. Lockmiller, Willis and Ruth Warren.

Isotox Wettable

ISOTOX wettable contains 25 per cent of the gamma isomer of Benzene Hexachloride. This product has been in the process of development as an insecticide in field tests by the California Spray-Chemical Corporation since 1943.

The odor and plant-burning properties of the crude BHC has been removed and ISOTOX is safe to use on most crops. ISOTOX can be used on cucumbers, squash, melons, beans, lima beans, beets and tobacco. Where it is desirable to avoid plant, injury or flavor contamination, which has occurred when less-refined Benzene Hexachloride insecticides have been used. Until further test work is complete do not use ISOTOX wettable on potatoes.

ISOTOX acts as a fumigant, a contact spray and a residual poison. The insecticidal residue left by ISOTOX is dissipated in a relatively short time. A Period of from three to five days before harvest is usually sufficient to avoid spray residue.

ISOTOX has been found effective against aphids, leaf miner, wireworms, cutworms, cucumber beetles, pickle worms, melon worms, thrips, armyworms, plant bugs, grasshoppers, mole crickets, flea beetle and chinch bugs.

ISOTOX can be used as a wettable spray or dust. ISOTOX is compatible with most generally used insecticides, and fungicides with the exception of lime sulphur solution and in dust formulas it is not compatible with lime or calcium arsenate.

For more information on ISOTOX or any insecticide or fungicide such as DDT, Cryolite, Lead Arsenate, Dithane or Copper, contact our store in Belle Glade.
